Description of Proposed Works

Please describe the proposed works

This application follows a recent refusal (21/6415/HSE) and proposes the refurbishment of the existing extension that is decaying, along with a conservation rooflight on the main roof for a better quality of life for the users. The reasons for refusal have been considered and the amount of glass on the new double pitch roof has been reduced, becoming discreet proportioning a more harmonious character, while the conservatory rooflight on the main roof will be recessed with the roof tiles (kindly refer to the design and access report for better visualisation).

We aim to respectfully obtain planning approval by following the planning committee guidelines while respecting the conservation area's existing character.
