Conclusion

Having considered the content of your enquiry, I can summarise that some of the elements of the proposal could be acceptable in principle, subject to the submission of further information/plans and subject to the advice provided within this response. These elements are:

- The removal of the concrete render from the dwelling.
- The removal of the existing hay barn from within the adjacent paddock.
- The removal of the existing milk store to the front of the byre.
- The conversion of the two storey, stone and slate byre (which adjoins the dwelling) into residential use to provide additional living accommodation.

- The replacement of the existing windows throughout the dwelling with new double-glazed windows.

- The installation of roof light windows to the roof of the existing single storey rear extension to the dwelling.
- The construction of a post and wire fence to follow points A, B and C on the submitted location plan to define ownership boundaries.
- The re-alignment of the dry stone boundary wall to the front of the byre (to follow points C, D and E on the submitted location plan) to enclose the land to the front of the byre and to change the use of this land into residential curtilage (garden) for the property.

Having considered the content of your enquiry, I can summarise that some elements of the proposal would not be acceptable in principle and would not be supported at application stage. These elements are:

- The creation of a new vehicular access point along the south eastern boundary.
- The creation of off-street car parking within the front garden of the dwelling.
- The conversion of the existing cow shed and workshop into additional living accommodation.
- The removal of the existing shed to the front of the byre.
- The construction of a single storey lean-to extension to the rear of the existing byre to create additional living accommodation.
- The alteration of the flat roof of the existing single storey rear extension to the dwelling into a lean-to roof.
- The construction of a detached double garage within the adjacent paddock and within close proximity to the north eastern boundary of the paddock.
- The change of use of the paddock into residential curtilage (garden) for the dwelling.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
