19<sup>th</sup> March 2022.

Dear Planning Department,

**RE: Non-Material Amendment, planning permission 19/00997/FUL**

Following my previous recent application of 12<sup>th</sup> March, I have now been advised that the section 73 form was incorrect, so now here with is the correct form and application for the same application to install two domestic air source heat pumps at our property.

Please refer my previous letter of 12<sup>th</sup> March for further information if required.

For this application, please find attached:

- Non-Material Amendment application form
- The original Planning application form from 2019
- Plans showing the proposed heat pumps position in red on the original plans
- My letter of 12<sup>th</sup> March 2022

The proposed domestic heat pumps are 3 phase RAS-6-WHNPE Hitachi Yutaki models, with a heating capacity of 12.98Kw each. The dimensions are 1,380mm high by 950mm wide and 370mm deep. For further information visit <https://www.hitachiaircon.com/uk/ranges/heating/yutaki-s>

I trust this information as requested is now correct and that the application can be processed rapidly. If there is any further information required, please do come back to me.

Finally, I have been advised that there will be a refund of planning fees in due course.

Yours faithfully,

Duncan Farrington BSc(hons) FRAgS
