Mr Bennett

Further to our telephone conversation, I have now spoken to our Conservation Officer Steven King. He has confirmed that you do need to get listed building consent before carrying out any internal works to the building. We would also require a floorplan detailing all of these works, the plan should be done to a scale of 1:50 or 1:100.

I have amended the description of the proposal of your application to 'Application for listed building consent for internal works'. Once I have received the plan I will validate your application and send the necessary consultations, there is a 21 day statutory consultation period but once that has expired Mr King will endeavour to issue a decision on your application as quickly as possible.

I look forward to receiving the drawing.

Regards
Jo Rahman
