ERECTION OF GARAGE (Retrospective) 2022/0406/FUL

Dear Sirs.

26 March 22

Thank you for your email of 11 March 22.

Please find enclosed further information to support my application including a cheque in the sum of [REDACTED]

I wish to contest your request for elevation drawings for the building as I feel that the images enclosed and those taken by Jason Walker on his site visit of 24th January '22 clearly show the size of the building and its impact on surroundings. The site has also been inspected by a senior planning officer from your department. I therefore ask that the authority waive the need for further information.

As stated in my application the work was carried out during the 1st lockdown in the mistaken belief that it was within permitted development rights, wrongly presuming that it was within the curtilage of the existing garages.

Dimensions are within the guidelines set out for permitted development and the work was carried out to a good standard of workmanship and design to ensure that it enhanced the area as well as providing me with the

necessary storage facilities to meet my needs .

Since it is now well over 12 months since the initial complaint was made to the council regarding my work . I would ask that you look at my application fairly in the hope that we can clear up the matter without further stress to the situation .

Yours Faithfully .

A large black rectangular redaction box covering the signature area.

STEVEN MORRIS .
