#### Description

Please describe details of the proposed development or works including any change of use

Installation of a 3m high green Mesh Panel fence to fully surround our MUGA (Multi Use Games Area). This is to enable us to lock the facility when not open to the general public and implement a noise management plan.

Further to this, we wish to relocate the current ball retention extension, recently installed on the rear boundary and install on the newly erected 3m enclosure being proposed with this planning application.

We also wish to extend this down each of the adjoining sides. This will improve its effectiveness of preventing balls being kicked out of the MUGA arena. Please see previous planning application 18-00919 for more information of current ball retention net...

Details of the pre-application advice received We were advised that reverting back to a previous 3m fence of an earlier application (16/00868) would need planning permission, given that we have already implemented the later permission. However, previous permissions would be a material consideration, and it was considered likely that the 3m high fence would be acceptable. Clare also asked for us to send a sketch to show the extent of the higher cantilevered section which was sent 29th July 2021. Authority Employee/Member With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member It is an important principle of decision-making that the process is open and transparent. For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
