

Heritage Statement – Proposed Driveway alterations at 10 Elm Tree Road, Locking, BS24 8DB

The property on this site dates back to the 1700's and is a grade 2 listed building.

This application it is convert the overgrown and disused area to a driveway and parking area with sufficient space to turn a car safely.

Architectural Detailing

The development will be using local Lias stone the match the surrounding walls and constructed in a way which compliments the existing property and surrounding areas.

Conclusion

The driveway will enhance the view from the highway towards the property but also ease congestion and parking on the one way street. The road is used as a busy bus lane so any increase in offroad parking will be beneficial.
