Dear Sir/Madam

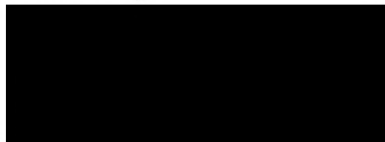

I am writing a letter of support for Sarah Simmons planning application. I am writing my support from my perspective as a Veterinary Physiotherapist within the local surrounding area.

I have been working in this profession for over ten years now and in this time there have been many incidents where occasions where I need to refer clients horses to a suitably qualified person for rehabilitation purposes. This includes referral for such issues that require the correct ground work to achieve the best potential outcome for them during the rehabilitation process. However I currently do not have anywhere that I am happy to refer people to for such purposes which often means the animal does not achieve a successful outcome from rehabilitation. Without someone to help with rehabilitation of these horses, it can sometimes lead to welfare being compromised, which as a veterinary professional we are all working towards improved health and welfare at all times.

Having worked together with Sarah for the past few years I know I can trust that she will provide the best possible care and correct regime to allow both horse (and owner) to achieve their best. We are currently working alongside each other with mutual clients and her input is invaluable. Her level of experience of training and handling of horses is vast and can help so many people within the area.

I therefore fully support her application for a training and rehabilitation yard as I feel it will be an assist to the area and local people within it. Working alongside someone with these facilities and experience will be a fantastic asset for myself and my clients who are all passionate and looking to improve the welfare of their animals at all times.

Yours sincerely
