Location Plan

H&S NOTES

DANGER: ELECTRICITY service into existing buildings, care must be taken when any excavation is taking place near these positions. Contractor to confirm positions of service cables to be marked on site, and also on copy of plans, once position of cable has been established.

DANGER: GAS service into existing buildings, care must be taken when any excavation is taking place near these positions. Confirm position of gas supply pipe before commencing on site, position of service pipe to be marked on site, and also on copy of plans, once position of gas supply pipe has been established. CALL 0800 111 999 IMMEDIATELY.

WATER supply to be located and located prior to the commencement of any excavation works. All excavations to be adequately protected from accidental/fall damage at all times.

Site to be used for the demolition/construction of the proposed works, which is to be protected at all times along with adjacent properties, not forming part of the works.

Contractor is to ensure that the supply of all services (hot/cold water, electricity, water, gas, etc.) is not affected by the proposed works. In the case that the contractor is to fully advise properties affected as soon as the problem is known, and is to negotiate with adjacent properties regarding any appropriate action that may be required to restore connection.
