Front west unchanged

Side south

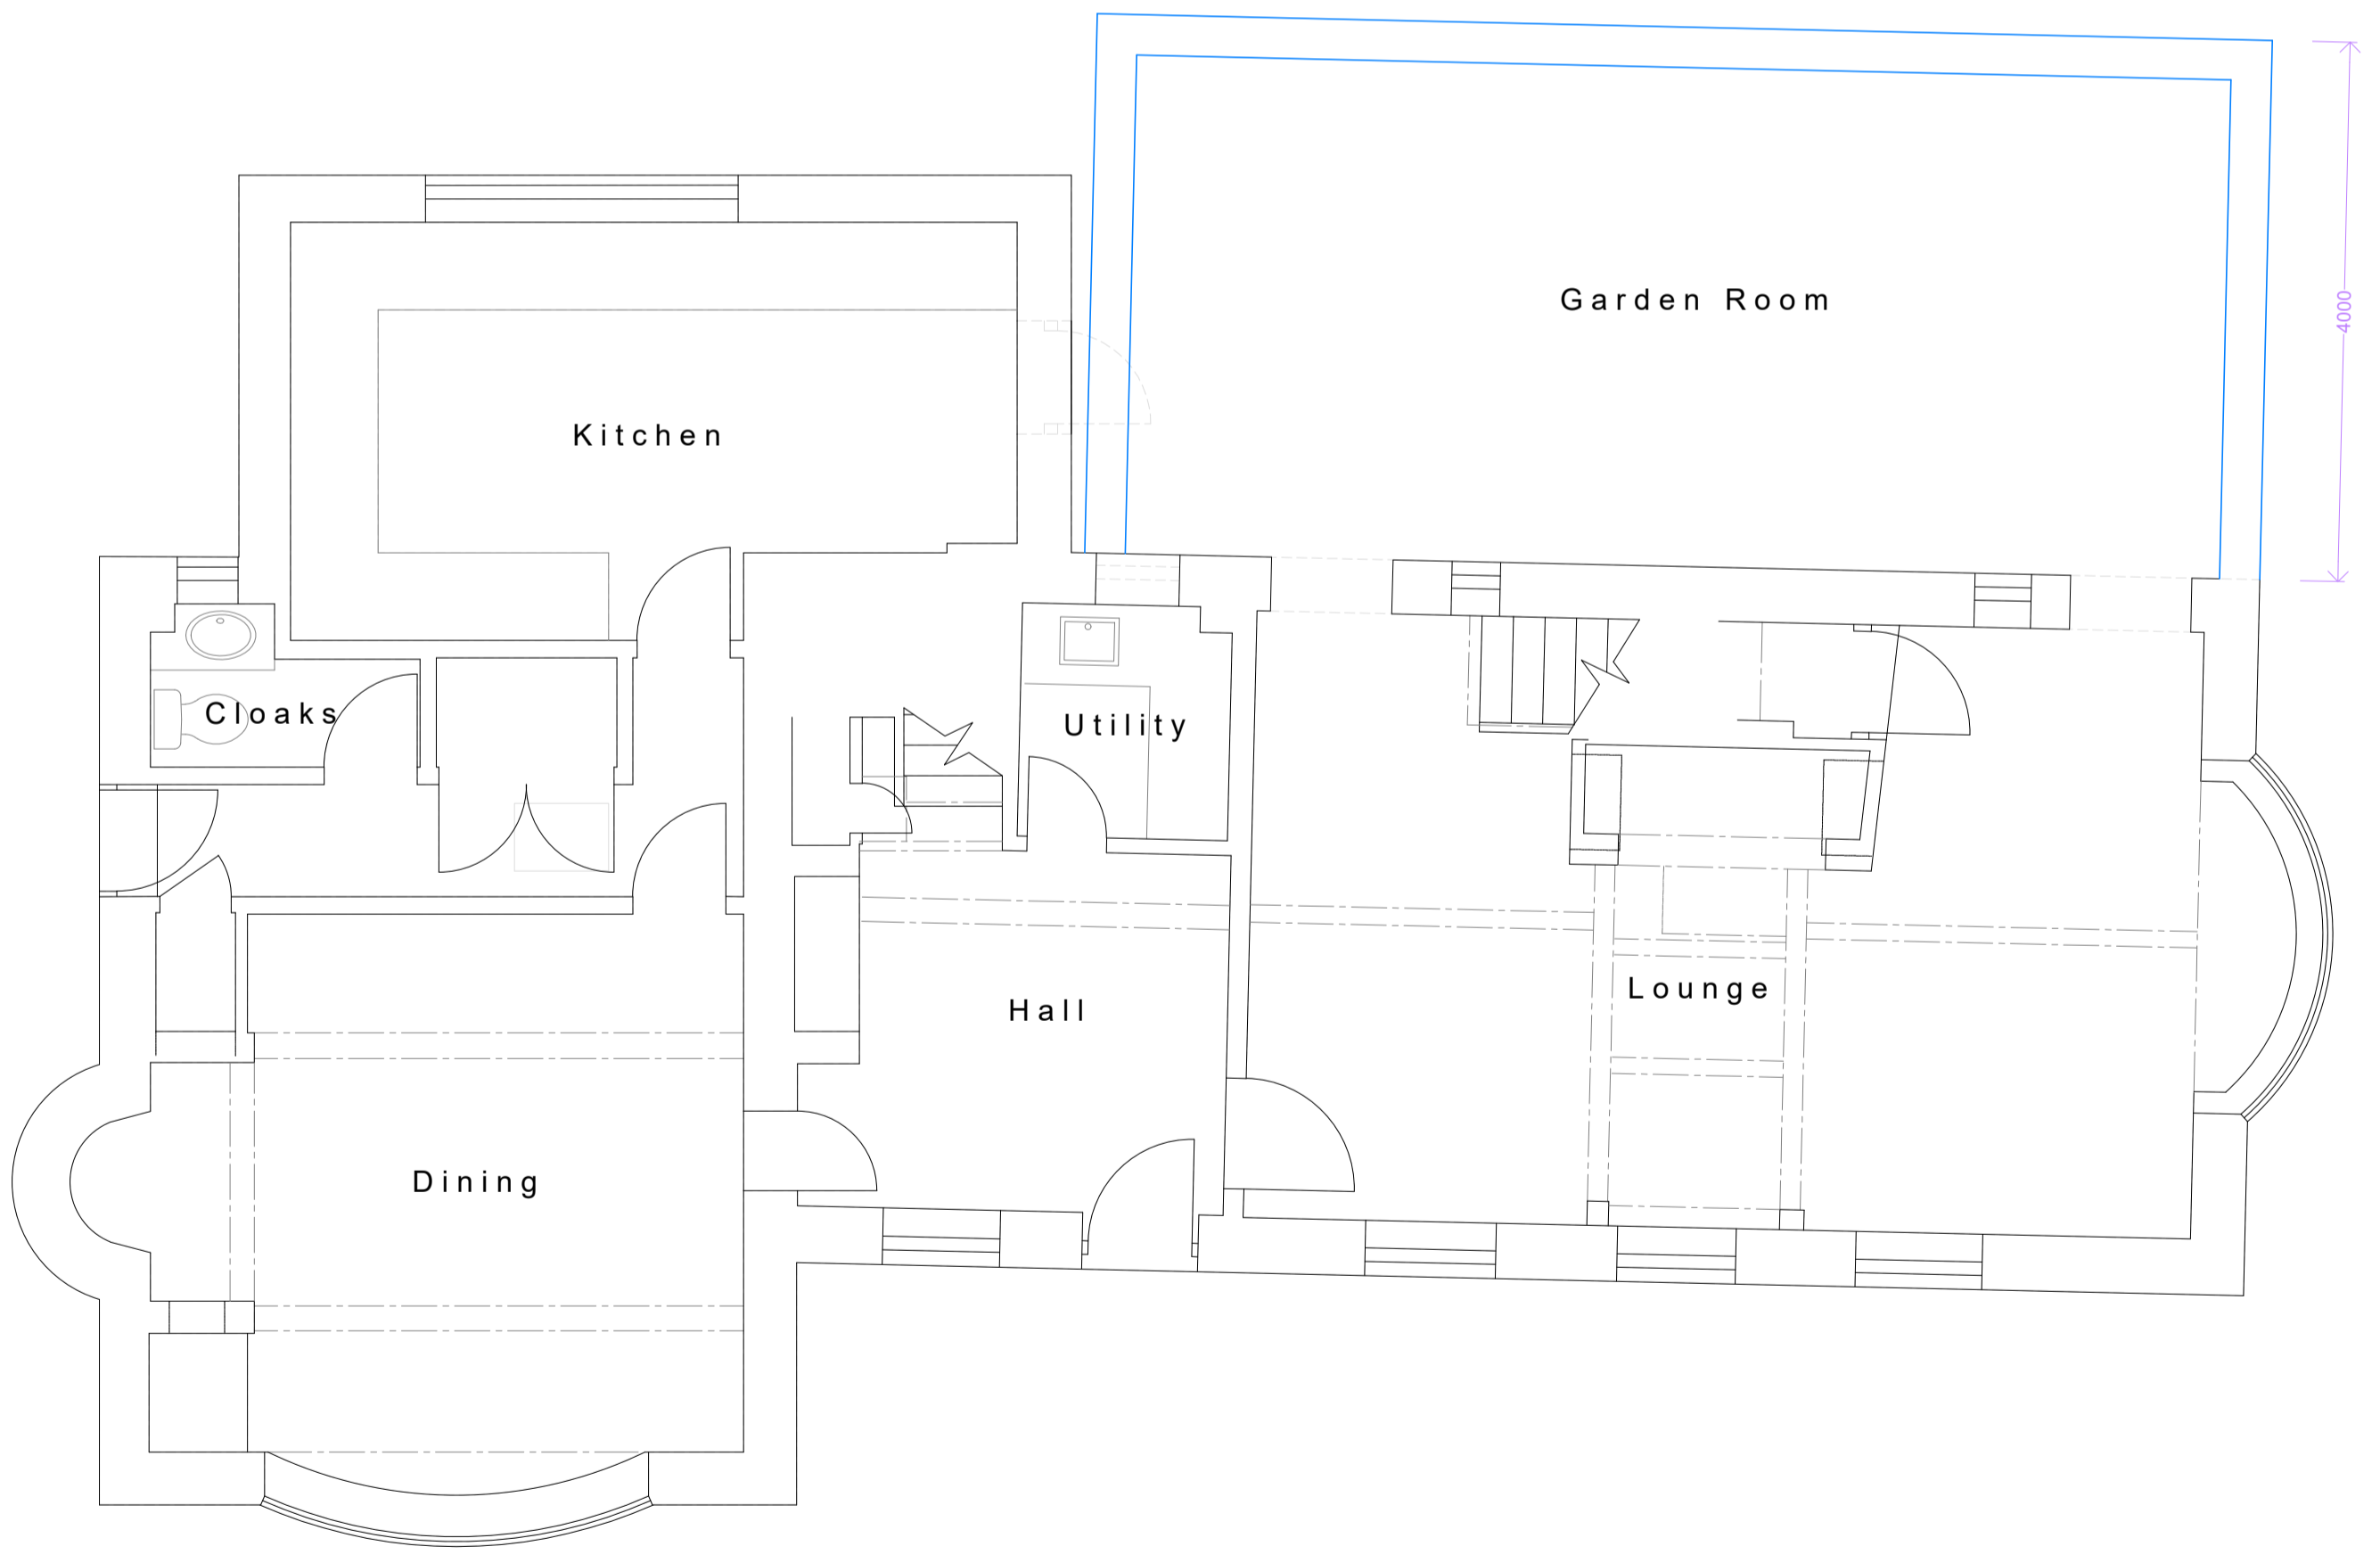

Rear east

Side north

- NOTES**
- The materials used in any exterior work of the proposed extension shall be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse; brickwork and flint to external walls. Flat roof in lead or grey single ply membrane.
 - The overall height of the proposed extension should not exceed 4m. Where ground level is not uniform (for example if the ground is sloping), then the ground level is the highest part of the surface of the ground next to the building.
 - The height of the eaves of the extension should not exceed the height of the eaves of the existing dwellinghouse. For the purpose of measuring height, the eaves of a house are the point where the lowest point of a roof slope, or a flat roof, meets the outside roof.

General Notes:
 This drawing is the copyright of N & J Design Limited and may not be copied in whole or in part without prior permission.
 It is the clients/developers responsibility to ensure all relevant approvals are in place and conditions satisfied prior to commencement of works, including, but not limited to:
 The Party Wall etc Act 1996
 Local Authority Planning Consent
 Highways (Road opening permit)
 Local Water Authority
 Building Regulations (Local Authority, NHBC etc)
 Environment Agency
 Due to the nature of oak, final component sizes and locations may vary slightly from those stated on this drawing. Dimensions may also vary once finishes and construction adjustments have been taken into account.
