Comment Details

Commenter Type: Local Resident (Mr/Mrs)

Stance: Customer made comments neither objecting to or supporting the Planning Application

Comment Reasons:

Comment: Our fence is the boundary between the 2 properties

And a metal shed that also forms part of the original boundaries mark as do the metal gates to the front of 33 there are

Supporting post for our own security and a garden water tap attached to the fence

We have no objections in a fence /wall being built as long it's within 33b side and the understanding all building will be done from that side and our property is left secure
