

3. STRATA PORCELAIN VOLCANIC GREY

Strata Porcelain paving is durable and easy to maintain in your garden as porcelain is highly resistant to staining or the growth of moss and algae. Volcanic Grey is a new porcelain that has been designed to give a mix of dark grey swirling tones for a stylish, low maintenance paving material. Volcanic Grey comes in shades of predominantly dark grey with lighter grey banding. Available in 20mm thickness. This paving is flat surfaced with lightly textured finish.
