## Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: First and foremost the location is only 5-10 meters away from the previous location refused in December 21 (Planning application 21/05675Y) therefore this application should be refused on the same grounds.

Specific but not conclusive reasons for my objection:

- 1) Health, Safety & Ecological Impact- Impact on human, insect & animal health from these masts is unknown therefore they should not be located near schools, residential housing, green spaces or parks
- 2) Not a suitable location. These masts are an eyesore and not in keeping with the character of the area. They can also be a distraction for drivers.
- 3) House prices proven to be effected negatively by up to 25%.
- 4) No risk assessment provided. Would you want one of these on your doorstep?
