Details of the pre-application advice received

The initial pre application was submitted by an architect who was employed to submit a full application. The Architect was then dismissed from representing the project and Mr Mountain was contacted directly via both email and telephone. Unfortunately much of the works were carried out on the information provided by the former architect, thus this is a retrospective planning application. Pre planning advice was given regarding the surrounding area, for example the impact the new staircase would have on neighbouring properties. Fortunately the staircase does not impact either of the connecting properties nor does it allow the property at the rear to be overlooked. Pre planning consultation raised concerns regarding the access getting to the property. The access to the building has not changed and is exactly how it was with the previous accommodation

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
