To whom it may concern,

Please find attached the information that has been requested.

Both maps show the area that the caravan is to be sited and the area for parking and turning. Due to the age of the caravan, no blue print of the elevation can be found and is not available as the original company who constructed the van, is no longer in operation. I have attached the only plan that I have, which shows the floor plan accurate at time of purchase. I hope this is sufficient. The caravan is 35 by 12 feet and stands at 273cm tall at the highest point at the gable end.

Please let me know if you require anything further.

Many thanks

Daye Tucker.
