### **Tree Report**

Dear Sir,

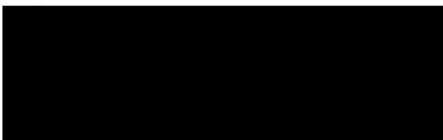

With reference to my recent visit to inspect one tree, front property at 15 St.Thomas Close, Widle. WA10 6BN. Please see my finding below.

Species: Turkey Oak/*Quercus cerris*  
Height: 14m approx  
Girth: 1m 40cm at 1m from ground  
Distance: from the property 15m approx  
Health: Good, no external of decay

Recommendations: At its present size and distance from the property, the tree bear no threat to the building, but to maintain the health and visual amenity value of the tree. Tree work: crown-lift by 3.50m approx pruning cuts for branches at a suitable growing point and balance the canopy over the path/road/garden, for more light, thinning 15%, remove deadwood/disease branches.

I hope the above information has of some assistance to you.

Yours sincerely

Neil Carson Nch(Arb.)
