Dear Sir/Madam

TOWN AND COUNTRY PLANNING ACT 1990

The proposed works comprise replacing the existing 20m tall telecommunications pole with a new 20m tall pole, the width of which is less than two thirds wider than the existing structure, to support 12 new antennas. One of the existing equipment cabinets at ground level will be replaced with a new cabinet of a similar size, and a further cabinet will be installed alongside. The overall appearance of the installation will not change significantly as a result of this upgrade.
