Description of Proposed Works
Please describe the proposed works
We are making this application because our property is covered by an Article 4 direction. The proposed works are to build a small patio in our back garden. This patio for summer dining etc would be build in our back garden, adjacent to our kitchen, and cannot be seen from any public areas (roads or alike). It will be built using complementary materials to blend in seamlessly with both the existing paved path surrounding our property and the outbuilding it is adjacent to. The patio would be laid on an area which is currently turfed (and will consequently not impact on any flora or fauna). Sandstone paving in mixed laying pattern would be used for the paved area, with sand and cement pointing mix. A cobbled sandstone border would be used around the edge. Finally a low retaining wall would be built using Warnham Red brick in Flemish bond (the same finish that is on the outbuilding that the patio would sit adjacent to) at a height of 675mm at its highest point to ensure a level finish on the patio.
