Preapplication advice sought for erection of a storage warehouse. In summary, the proposed new storage warehouse appears generally acceptable in terms of location and scale, and, based on the information you have provided to us, the impacts of the proposed development in terms of the intensity of existing operations on site and the impact on neighbouring residents appear to be minimal. Concerns regarding the 8m high boundary structure above should be addressed, and the information requested in the report above and as listed below should be provided in support of any future planning application.
