OPTIONAL EXTRAS IF APPLICABLE;

GLASS - We can supply your joinery with or without glass, loose or factory fitted (only if top coat painted).

Please note, if the glass is supplied loose the price excludes silicone, putty or fixing tape. It is vitally important that when glazing double glazed units that the correct recommended silicone is used - please refer to our website for further information. If you would like us to quote to supply you with the recommended glazing materials please let us know.

PAINT - We can supply your joinery either unpainted, primer only or with a fully finished topcoat to match any RAL colour of your choice. If we are painting a door frame, the hardwood cill can be painted the same colour as the frame, painted Black or Mahogany.

To improve the quality of our joinery some softwood is engineered and may have finger joints showing on the face, when painted these are not seen, however if your joinery is stained these joints may still be visible.

Please note, if your joinery is primed only it will require a minimum of 2 coats of topcoat asap.

TRICKLEVENTS - Brown or White tricklevents are available at an additional cost of £20 plus VAT per vent.

Door drips, hinges and hardware are not included unless specified in the quotation.

If delivery is required a charge may be payable.

Any alterations to your confirmed order may incur charges.

Supply only, Pronto Joinery do not install.

For any queries please contact us on the above telephone number, email or by visiting our website at [www.prontojoinery.co.uk](http://www.prontojoinery.co.uk)

Yours Sincerely,

Adrian Scott
