

Proposed ground floor layout

All dimensions to be checked on site prior to commencement of work.
Do not scale from the drawing, use figured dimensions only.

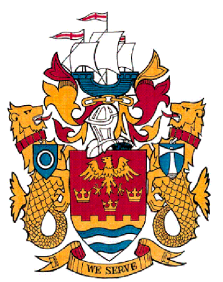

Stage- Preliminary with a flat roof design

Comments:

All work to conform to the latest editions of the Building Regulations, Construction Design Management Regulations 2015, British Standards. Drainage to be verified on site.

Asbestos

Vigilance and care should be exercised whenever areas of the building or fabric are opened up for maintenance or building work. Any person whom suspects the material they are working with contains asbestos should immediately inform the supervising officer.
