Details of the pre-application advice received
Objections urban design as they consider that the massing of the development is too great, leaving no room for defensible space and that the design itself is poor giving little regard to the characteristics within the conservation area. The key issue with this proposal relates to its design, the site falls within the conservation area and adjacent a listed building, special regard must therefore be given to achieving a high quality design. This does not preclude a contemporary design, but such a design should reflect historic character in terms of complementary materials, proportions, roof design and scale in order to enhance the setting of the conservation area. The scheme as proposed is flawed in number of areas, firstly its massing and footprint does not reflect the historic character of the area and secondly the material choice is poor and makes little reference to adjacent buildings or would be of a high quality, it is noted that the applicant has reflected in their Design and Access Statement that they consider that this contemporary design follows the general height proportions of the surrounding buildings, but i am not convinced that the flat roof design adheres to the specific characteristics of this area. For these reasons the proposal is contrary to Policy ENV1 and SAD HE2 (Conservation Areas) in that the the proposal does not demonstrate that it would preserve or better reveal the positive elements of the conservation area or enhance the appearance of the conservation area. Furthermore given the proximity of the listed Highfields building it is considered that the proposed proportions and massing and roof design would not enhance the setting of the listed building given that there is vehicle entrance immediately adjacent the site with long views towards the listed building. Turning to more general design policies, the scheme itself is considered to be overly intensive, it appears to take up the whole site which would have consequences on the adjoining carpark, in terms of its development potential,

Pre-application Advice

Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Ownership Certificates and Agricultural Land Declaration
Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)
Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.
Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days? Yes No
Is any of the land to which the application relates part of an Agricultural Holding? ○ Yes ⊙ No
Certificate Of Ownership - Certificate A
I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**
* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.
** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.
NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
