FREE UK delivery with orders over £30

Best-selling, diamond shaped, open-fronted nest box attractive to robins, wrens, pied wagtails and spotted flycatcher.

Beautifully made from FSC® timber; roof treated with safe, non-toxic, water-based preservative. UK made.

*With a wide range of expertly-designed bird houses to choose from, you can easily provide a safe, welcoming home in your garden for different wild birds. RSPB Shop also provides advice on where to locate your bird house. Help us give nature a home!*

## Installing your nestbox

For secure and stable fixing, there are two hanging tabs attached to the back of the nestbox, one at the top and one at the bottom. These tabs make it quick and easy to securely fix it in place. Screws not supplied.

### **Type of bird**

- Robin
- Wren

### **Specification**

Width 25 cm Depth 23 cm Height 17 cm

## Advice

RSPB nest boxes are made with thick FSC® certified timber and will survive for many years, even without the use of preservatives.

If you do want to protect your nestbox further, use a water-based preservative (preferably one that complies with standard EN71 part 3 as safe for children's toys). Such paint/preservative types are clearly marked on the container, and are available from DIY stores and hardware shops.

Preservatives should only be applied to the outside of the box. Apply in the winter, when there is a low likelihood of occupancy. This will allow time for any remaining volatile components to evaporate.

FREE UK delivery with orders over £30

Provides three separate nest boxes in one FSC® certified timber terrace, each with its own 32mm entrance hole. Beautifully made in the UK.

RSPB nest boxes provide a safe and snug place for birds to roost and nest. Unlike cheaper alternatives, our bird houses are made from sustainable FSC® certified timber and have excellent insulation properties. This makes them warm in winter and cool in summer. RSPB nest boxes are carefully designed with correct dimensions and ventilation, without perches for intruders to grip onto and threaten the occupants.

### Type of bird

- House sparrow

### Features

Measures 48 x 23 x 17cm

## Advice

### Which size nestbox hole for which bird?

25mm - blue tit, coal tit, marsh tit

32mm - great tit, tree sparrow, pied flycatcher, house sparrow, nuthatch, lesser spotted woodpecker. 32mm entry holes can, if you wish, be reduced to 25mm using a nest box plate (R0110).

### Cleaning

The box has two screws, each level with the entrance holes on the side panels of the box. Once loosened, the front panel of the box pivots open to allow access to all three chambers. Only do this for maintenance after the breeding season has finished.

RSPB nest boxes are made with thick FSC® certified timber and will survive for many years, even without the use of preservatives.

If you do want to protect your nest box further, use a water-based preservative (preferably one that complies with standard EN71 part 3 as safe for children's toys). Such paint/preservative types are clearly marked on the container, and are available from DIY stores and hardware shops.

Preservatives should only be applied to the outside of the box. Apply in the winter, when there is a low likelihood of occupancy. This will allow time for any remaining volatile components to evaporate.
