Save £1 when you buy an RSPB Burford bat nesting box (item R405121) and a bat guide and seeds attractor pack (item R404398) together.

The Burford bat nesting box is made from solid, durable FSC<sup>®</sup> certified timber which provides great insulation. It features two different-sized chambers, making it suitable for pipistrelles in the smaller chamber and brown long eared bats and noctules in the larger chamber.

The bat attractor seed pack is a special native wildflower seed mix to attract insects for bats and includes a colourful and informative bat guide. The pack contains a special mix of wildflower seeds for night-scented plants, which attract insects to the flowers and are in turn are food for bats.

Please note that bats are a protected species and it is an offence to knowingly disturb an active roost without a license.

## Description

### Description

The Schwegler General Purpose Bat Box is the most basic bat box we stock in the Schwegler range. It is the box we will advise people to put up if they want to provide bat roosting sites, but aren't sure whether there are any bats around, or what species they are. Essentially it is the lowest cost option, with bats roosting in the conical roof space. You will get a surprising amount of bats move into this box, so you can see why Schwegler refer to it as the 'starter' box for bat protection.

We tend to describe this box as looking like the Schwegler bird boxes, and from a distance you wouldn't know the difference.

External dimensions: 16 x 33 cm

Weight: ~3.8kg

## Schwegler General Purpose Bat Box (2F)

£24.96

(Excluding VAT)

Schwegler General Purpose Bat Boxes are the basic option in Schwegler bat boxes. We like it because it looks like the bird boxes and is really versatile for different bat species.
