"Absolutely love my Rhino"

SARAH IN SCOTLAND

**WE ARE PROUD  
TO BE A BRITISH  
MANUFACTURER  
INVESTING  
IN BRITAIN**

Not only can we maintain our exacting standards of quality control and offer the highest levels of expertise and service to our customers, but buying direct from our Norfolk factory gives our customers unsurpassed value by eliminating the extra profit margin applied by a retailer.

We are also passionate about offering unmatched quality with value for money, so all our Rhino greenhouses come with our unique and unrivalled 25 Year Warranty.

## THE GREAT

## BRITISH RHINO

*With pride and passion*

## A GREAT BRITISH SUCCESS STORY

Greenhouses Direct launched our own Great British Rhino greenhouse range in 1999. As gardeners, we were passionate to create a better greenhouse at an affordable price, one that would be a joy to own and that we would be proud to have in our own gardens.

As thousands of satisfied customers now appreciate, we have achieved that with the Great British Rhino – a superb greenhouse offering a comprehensive, superior specification, the ability to combat the worst of the British weather, and reassuring levels of safety for all the family.

### GREAT DESIGN

Over the years we have refined and improved the Rhino. It has become stronger and more elegant, thanks to having the former Design Director at Lotus leading our design team. You might imagine that after designing the De Lorean and the Lotus Esprit, greenhouses might be a bit tame, but Colin revels in his role at the Rhino factory.

Our first employee, Matt, is still with us. Having worked in all departments and every single role, he now runs the factory, knows all our products inside out and is a real stickler for quality control.

### QUALITY & VALUE ARE OUR WATCHWORDS

Rhino greenhouses are built right here in the UK and sold direct to you from our own purpose-built Norfolk factory – a real hive of activity making over half a million different parts a year. But nothing is rushed, every part and every step has to meet our exacting standards and strict quality control procedures.

Our dedicated staff really care about what they produce, and many of them have been making Rhinos since we began – it's this pride that helps make a Rhino greenhouse so strong, high in quality, and greater value than you can find anywhere else.

### EXCEPTIONAL SERVICE & ADVICE

We care about making your greenhouse purchase as easy as possible, and when it comes to greenhouses we know what we're talking about. We are here to help you understand the different models, specifications and options, or to provide help and support with after-sales 'how to' questions. If you need any help or advice just ask – we're here 7 days a week.

### FREE DELIVERY

And our care and attention doesn't stop there. Our very own fleet of vehicles deliver our Rhino greenhouses free of charge right across the UK mainland (for other areas please see our website).
