

Mr and Mrs Powell

Little Bretts

Hamsey

BN8 5TD

The Head of Development Management

Planning Department

Lewes District Council

To Whom it may concern,

**Re Planning Permission at Old Line Cottage, Ivors Lane, Hamsey, BN8 5TY**

We write with reference to the above and in support of Mr and Mrs Chubb's application to erect a single story extension to their home in order to build a fully equipped and adapted bedroom with cleaning facilities for their disabled daughter Josie.

We have known the family for over 30 years and are aware of Josie's disabilities. We have watched James and Charlotte tidy and update the house to its current condition since they moved in in 2018. The recent extension is a welcome addition to the house and very much in keeping with the area.

James and Charlotte have sat down and discussed their proposed plans for the new extension with us and we support their application in every regard. With the extension they have in mind they are future proofing the family home and environment for them to stay as a family unit. It is paramount for the family to remain within the loving and nurturing home and to retain the strong support unit that they now have in order to ensure Josie can have the best quality of life and care.

We think it is admirable what James and Charlotte are trying to achieve for their family and vehemently support their planning application.

Yours sincerely

Kevin Powell
