

Mr and Mrs Allaway  
Drove House  
The Drove  
Hamsey  
BN8 5TA

The Head of Development Management  
Planning Department  
Lewes District Council

To Whom it may concern,

**Re Planning Permission at Old Line Cottage, Ivor's Lane, Hamsey, BN8 5TY**

We write with reference to the above and in support of Mr and Mrs Chubb's application to erect a single story extension to their home in order to build a fully equipped and adapted bedroom with cleaning facilities for their disabled daughter Josie.

We have known the Chubb family since they moved to the area in 2018 and have watched them tidy and update the house to its current condition. The recent extension is a welcome addition to the house and in keeping with the area.

As we both have a medical background we are very much aware of the progressive nature of their daughter's muscle wasting condition and the impact it will have on her physical ability and the family's life together.

James and Charlotte sat down and discussed their proposed plans for the new extension with us and we support their application in every regard. With the extension they have in mind they are future-proofing the family home and environment for them to stay as a family unit. In addition to medical intervention, it is paramount for Josie to remain within the loving and nurturing home and to retain the strong support that she now has.

We think it is admirable what James and Charlotte are trying to achieve for their family and fully support their planning application to achieve this purpose.

Yours sincerely

  
Valerie Allaway
