

Left hand steel is not required as
new joists are to sit on new stud wall

Existing steel size = 130 x 270mm
Greatest span 6615mm

See design specification for all other
details for building refurbishment.

Straps to support double joist sitting
on cripple studs hanging from
timber within the web of the existing
steels

Please note - floor and ceiling
heights are at different heights to
allow bed to fit.

Existing steels to be left in situ and
used to support new floor where
possible
