

**PROPOSED WORKS AT ROOF LEVEL:**  
 Remove three inner mansard roofs and dormers to lightwell  
 Infill lightwell with new timber flat roof with insulation and single ply membrane finish.  
 Remove existing lantern light over stairs and landing and replace with smaller flat glazed rooflight which will also act as an automatic smoke vent to improve the safety and means of escape.  
 Raise party wall parapet with no 59, see Sections X-X and Z-Z

**PROPOSED LIGHTWELL INFILL:**  
 Remove redundant lift and structural wall to lightwell  
 Infill remaining windows to lightwell.  
 New floor beams and in-fill flooring, timber joists, ceiling and floor finishes. Making good to structure and finishes.  
 New 6 person lift within new blockwork lift shaft.  
 New partitions where shown, new toilets, renew drainage and services etc.
