Subject: Tree damage

[REDACTED]

Dear Planning team

These images show the amount of debris and leaf drop. This is sustained throughout the year. Bud cases early spring, leaf and flower, drop spring / summer, leaves and general tree debris through out the rest of the year. This is unmanageable for us. We have had three repairs to roof and chimney stack. Access in damp conditions is dangerous. risk of serious injury or death from falling limbs. general darkness in the house has seriously affected our wellbeing. We therefore ask that the TPO is removed allowing us to remove the tree. You are most welcome to visit and get an understanding of the negative effect this has to our lives.

Kind regards
