Conclusions/ Planning Balance

Based on the three options discussed, the most preferable one would be for the submission of a dwelling in a very similar or the same southerly location as the existing barn. A Class Q for four dwellings would also likely be acceptable. Relocating the dwelling wholly into the northern field, thus splitting the site into two, would likely be unacceptable and would face refusal.

You would either need to submit a prior approval application or a full application.

The risk of an application, which seeks to erect a single dwelling utilising the Class Q fallback position in a marginally different area to that of the existing barn within the existing garden land of Moat Farm is considered to be low.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- Yes
- No

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.
