

30th June 2022

Planning Application- 10-12, Pytchley Road, Orlingbury

PLANNING STATEMENT

This proposal seeks the approval of an agricultural shed for Mr Turnell, who has owned the land for over 20 years now.

The paddock itself is a well-kept field which is regularly mown using the array of farm machinery which he privately owns. The purpose of the structure is to safeguard and protect this machinery, some of which is classed as classic historic.

It is a much-required entity to this land in order to protect this collection of classic tractors and machinery from the weather mainly.

The field is currently used for annual fundraisers and for the enjoyment of Mr Turnell and his family.

Best Regards
