

## Application to carry out works to trees covered by a TPO

### Site address

Orchard House  
Richer Road  
Badwell Ash  
IP31 3DQ

### Site map and location of tree

## Specification of works

### T1. - Walnut - *Juglans regia*

The mature Walnut is situated in the far easterly corner of the garden of Orchard House and has a crown which spreads over 4 gardens. The tree is in good health and condition and has reacted well from previous pruning.

It is proposed that the lateral spread to the north west is reduced by 3.5m in order to reduce suppression to neighbouring species and also elevate some of the load bearing on the long lateral limbs and reduce the risk of limb failure.

It is also proposed that selective minimal lateral pruning is carried out up to 1m to reduce dominant limbs towards neighbouring buildings trees and fences.

## Proposed line of pruning
