Good day

Further to your email of 18 July regarding the above Planning Application.

I was afraid that this was going to happen when I lodged the Application via the Planning Portal; this application was a replacement for 22/00814/FULHH which was withdrawn on 4 July but unfortunately there appears to be no category to cover this eventuality.

If you would like this application to be resubmitted under a different category, please let us know. This submission was sent as a resubmission of a failed application since it is the only way the Planning Portal will allow the submission to be forwarded without payment, which we believe is not due in this case.

Regards

Ralph Massie
