Details of the pre-application advice received
Latest advice received, based on a second revised sheme: "The reduced scale and positioning is welcomed and aligns better with the requirements of policy DM8. I think there could be a logical argument to extending the curtilage past what historically functioned as the garden for this dwelling (as shown on this amended plan) given the proposal would remove other buildings on site and improve the sites character. I think it would be helpful for you to include the existing footprint of development on site vs the proposed in any future application. If any benefit is to be attributed to the removal of the buildings that are not directly impacted by the footprint of the dwelling then their removal would need to be secured by condition.  My only reservation is the property sitting gable end to the road but sat quite far back – I think this could look quite unusual in this context. Typically we'd expect to see the front elevation addressing the street scene. Where a gable presents to the highway this is usually sat adjacent to the highway edge rather than so far back so I wonder whether a scheme could be developed with the dwelling turned 90deg to front the highway?
Other these points I'd just reiterate other comments made in the original response letter. "
Note: A front elevation addressing the street scene has subsequently been incorporated in to the design.
Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
