

A021-010 Proposals at Hawkley Place, Hawkley, Liss, GU33 6LX

Soil Management Plan – Rear Gates, Gravel Driveway and Field Shelter

The Proposal

Proposals include an extended gravel driveway / parking area for staff and turning equestrian vehicles, new entrance gates as secondary access replacing existing metal field gate. Replacement field shelter and retrospective change of use of land from agricultural to private equestrian use.

The Site

The site (residential curtilage and paddocks) is approximately 21,870m². The property has a large extensively planted garden including a working fruit and vegetable garden and paddocks. The land subject to this application has an area of 9,646m².

Soil management

Excavations for the works will be relatively low scale following the natural contours of the existing ground with topsoil and subsoil to be re-distributed on the properties extensive plot.
