

Kings Lynn and West Norfolk Council
Planning Department

10 June 2022

Dear Sir/Madam,

**North Runcton Caravan Site, New Road,
North Runcton, Kings Lynn, PE33 0QR**

Proposed development for Solar PV equipment on the roof of 4 holiday lodges

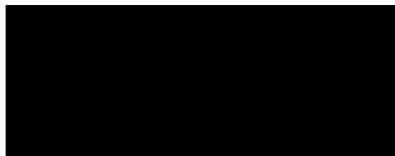

This application seeks planning permission for the erection of 80 small Solar Photo Voltaic Cells on the roofs of 4 buildings within this caravan park.

A location plan and details of the installation including dimensions is provided.

A similar application was submitted in February 2021 (22/00422/LDP) seeking confirmation that these Panels were permitted development. This application was withdrawn on the helpful advice of Mr Connor Smalls.

Your normal requirement for statements reporting on Biodiversity and Contamination screening are not relevant to roof mounted structures.

Yours sincerely,

Gordon Smith, MRTPI
