Bryan Harris' advice: hard wood sash window replacements will be satisfactory. Double-glazed units to replace single glazing in existing frames will be satisfactory. A lime mortar mix is satisfactory for renovating the pointing on the stonework. Bryan Harris suggested rerouting tv aerial cables through the roof to remove unsightly cabling from the facade; we would like to carry out this suggestion. Bryan Wade of Building Control advised about the regulations regarding the size of the opening of the lower portion of the first floor windows: We will be consulting these regulations when specifying the production of the new windows.
