Good afternoon, thanks for your email.

The following drawings are required for validation.

Existing

- **Front elevation – Has not been provided**
- Side elevation – ok
- Rear elevation – ok
- Floor plan – ok for purpose

Proposed

- **Front elevation – provided in part – can I have the whole elevation please. I accept there is something there already but what is proposed is taller so I would like to see this on a full drawing.**
- Side elevation – ok
- Rear elevation – ok
- **Floor plan- Has not been provided. I need a plan showing the openings in the walls, not just a roof plan.**

It would also be very helpful if you could put drawing numbers on the proposed drawings (just sheet 1 , sheet 2 or similar will be fine). The drawings on any approval are conditioned by drawing number/title so it would help to have something on here that they can be referenced to.

Thank you

Kind regards,

Hi Lucy

Bit confused as this is on the side not the normal rear elevation

also don't under understand why you need to assess the impact as there is already a conservatory in the exact place

have attached a few photo so hope this will suffice
