

Note
 The existing mature trees along the northern boundary (Holly, Scots Pine and Pear) to be retained as part of the development. Some pruning to maintain these trees and provide growing space will be necessary subject to consent for tree works in conservation areas.

New Assorted Evergreen Planting (eg Escalonia, Elaeagnus, Pyracantha, Viburnum) to create in-fill screening between existing mature trees. Maintained 1.2m to 1.8m in height to reduce the visual impact of the development when viewed from Shepherds Close

New specimen wall shrub planting to reduce visual impact of New Garage
