Dear Philip, Thomas,

I am attaching photographs below of the proposed tiles for the rear range only at Gedding Grange. As you can see from my photos the front of the house already has a mix of machine made and handmade tiles. We have made the assumption that you are wanting us to match the handmade section. To that end we are proposing the following tile.

Photos

1. Main roof on front of house

2. Close up of hand made section.

Suggested replacement tile as suggested by the roofer.

If you could let me know if these would be acceptable I would be very grateful.

Kind regards

Jen Milner
