

Appendix 2 – Screening Assessment Form (Version 10.3)

If you are undertaking a small development (i.e. one house in a garden) this Screening Assessment Form can be used as a basic contamination assessment, which fulfils the requirements of the 'Existing Use' section of the planning application form. This form may be used in other circumstances at the discretion of the Local Planning Authority, but please check with them first.

This Screening Assessment Form is not suitable for larger housing developments, or if there has been a past industrial use on or adjacent to the land. In these instances you will need to submit a Phase 1 Report (Preliminary Risk Assessment) and if appropriate, subsequent Phase 2 (Site Investigation and Risk Assessment), Phase 3 (Remediation Strategy) and Phase 4 (Verification) Reports.

NOTE: Failure to provide the required information at this stage may result in a delay in the application process and the imposition of planning conditions relating to land contamination.

If at any point when completing the form you suspect there is a likelihood that contamination may exist on the site (or on an adjacent site) which could affect the proposed use, it is strongly advised that you contact the Council's Contaminated Land Officer before proceeding, as your findings may necessitate the submission of a more detailed Phase 1 Report.

Please complete this form in BLOCK LETTERS and submit with photographs to the Local Planning Authority with your completed Planning Application Form.

SITE DESCRIPTION

Please provide a detailed description and photographs of the land being developed. Include details of the layout and ground covering, any evidence of former buildings or site activities, any evidence of made/filled ground, and any signs of subsidence or contamination (e.g. ground staining/disco­louration, odours, vegetation distress/dieback).

Neglected private bungalow and garden which has been in constant occupation. Bungalow is brick built under a tiled roof and with solid fuel heating. There are various wooden sheds with a mix of roofs including: bituminous felt, corrugated tin and corrugated fibre sheet. Within the 'main' shed there is a car awaiting restoration along with various spares / tools etc. There is a derelict caravan on site. The dwelling is served by mains foul drain and surface water is taken to soakaway. There is an underground mains water supply and overhead electricity supply. No evidence was found of any particular 'waste storage' having occurred on site. The remains of a small 'domestic' bonfire were evident. Verbal enquiry and record search reveal no evidence of any quarrying or land fill activity in the vicinity of the site. The entire site is to be comprehensively cleared for the proposed development.

Please see accompanying drawings Ref: 1139-01 'As Existing' and 1139-02 'As Proposed'

Please also see accompanying Photographs which were taken within the last five years (when the site was less overgrown).

SITE HISTORY, LAND AND BUILDING USE

Please undertake a complete historical map review dating back to the mid/late 1800's, to provide a description of the previous uses(s) of the site and immediate surrounding area. *Historical maps are available to view online and possibly at local libraries.*
