roosting space for them.

Bats play an important role within our environment. As well as performing some pollination, bats are a natural control of insect populations as these are their main food source. Bats are also a good indicator species of ecology health, with changes in populations reflecting local biodiversity.

The beautiful Bat Block bat brick features an internal FSC certified wooden panel, a small entrance space to deter larger birds and predators and is standard UK block size.

When positioned South or West facing, the Bat Block bat brick becomes a summer maternity roost and when placed in a north facing position the Bat Block becomes a winter hibernation roost.

10% of all sales from the Green&Blue Bat Block go to the Bat Conservation Trust via their roost scheme. [More info here.](#)

## DETAILS

The Bat Block bat brick is designed and made by Green&Blue in the UK.

### Lead Time

Delivery should be between 3 and 8 days for Bat Blocks. Please contact us if your order is urgent.

### Materials

Made from cast concrete using up to 75% waste materials from the Cornish China Clay industry.

### Dimensions

215mm x 440mm x 120mm (+15mm fascia depth)

### Weight

Approx 15 kg (unpackaged)

### Positioning

The Bat Block should be positioned at least 4m from ground level, in proximity to vegetation and linear features like hedgerow which bats rely on for navigation and food.

South or West facing will provide summer maternity roosts and north facing will provide winter hibernation roosts.

### Installation

**GREEN AND BLUE BAT BLOCK**

Terrific looking bat block that you can see is carefully designed to provide optimal conditions for certain bat species to thrive. Looks exceptionally easy to install as it is made to fit in with all other block work during a build.

**BAT BOXES**

Customer service skills are excellent  
Cannot rate high enough  
Wish I could say the same for DPD Local who messed up the delivery

**BRILLIANT**

Both the batt box and bee blocks were nice quality one of the bee blocks was damaged probably in transit, the delivery people need to be more careful it does say fragile.
