About this product

A lack of suitable nesting sites is thought to be one of the main reasons behind the decline in our swift populations and by installing nest boxes such as this one it will greatly help to support their numbers. This build-in nest box is designed to be integrated into the cavity of a building. It is constructed from long lasting FSC certified WoodStone with a plywood backing. This nest box should be sited at least five metres high, with a clear flight path and avoid south facing sites.

Specification

- Width: 42 cm
- Height: 18 cm
- Depth: 15.5cm
- Weight: 5.3kg
- Material: FSC certified WoodStone and plywood
