

### Full description of Work

Tree 1 on sketch plan:

To fell a 12 - 15 metre tall conifer tree on land of 2 Drury's Lane which is 4 metres from the back wall of the garage belonging to 4 Drury's Lane. The surveyor from Howard David who surveyed 4 Drury's Lane in conjunction with its purchase recommended that the tree be removed/reduced due to its close proximity to the garage. Further enquiries with buildings insurers have revealed that subsidence cover will not be covered on the garage whilst the tree remains standing.

Subsequent appointment of tree surgeon from Special Branch, Rutland confirmed the tree may be felled without the risk of heave. The stump will remain in order to avoid this risk.

Permission has been given by Mrs Lily Watkin for the tree to be felled.
