Hi Joe

22/0701/HH | Gable extension to side elevation to create additional second floor accommodation | The Farmhouse Church Farm Station Road Elmesthorpe

Thank you for requesting my observations in respect of the above application.

In my view the construction of a gable in between two existing gables at the side will have an adverse impact on the integrity and appearance of the application property.

I note, however, that the proposed design and materials match the existing and the side elevation does not directly face the statutorily listed neighbouring parish church. In my view the special interest, or significance, of this designated heritage asset will not, therefore, be unduly compromised by the development.

Best wishes

John
