

This drawing is to be read in conjunction with all relevant documents and drawings. Report all discrepancies to Property Directorate immediately. No unauthorised use, disclosure, storage or copying.

Notes:

1. These drawings have been developed to an 'Outline Design' stage and not for construction. It is the responsibility of the principle contractor and modular provider to develop designs to a stage suitable for construction, providing a fit for purpose solution which satisfies the minimum Performance Specifications for Rapid Deployment Cell Project as prepared by Mace.
2. All materials indicated are to be installed in full accordance with manufacturers recommendations and details. Substitute with equivalent alternatives at the contractors discretion.
3. All work is to be carried out to observe best building practices and applicable British Standards.
4. These drawings are subject to a fully measured survey.
5. These drawings relate to architectural elements only and should be read in conjunction with related design proposals as prepared by the wider appointed design team consultants. As such NMA do not accept responsibility for the coordination of work as prepared by supporting disciplines.
6. Areas of this drawing which are encircled with a 'Revision Cloud' are subject to design development.
7. All FF&E and loose furniture shown is indicative only.
8. These drawings are subject to relevant statutory consents, building regulations, MoJ technical standards, third party approvals and Landlords consent(s) and/or agreement(s) as necessary.

Site Specific Notes :

1. CCTV surveillance to all external areas.
2. Initial layout subject to revision following receipt of topographical survey.
3. Plant/infrastructure compound subject to MEP proposals.
4. Contractor to evaluate adequacy of existing security gates and put forward recommendations if either new or reconfigured gates are required.
5. New external hard and soft landscaping and associated drainage to MoJ technical standards and project performance specification. Contractor to prepare detailed design for agreement prior to installation, utilising existing hard surfacing wherever possible.
6. New Fence and Gate in accordance with MoJ Standards.

LEGEND:

— Line of New Security Fence & Access Points

The proposed fence is constructed of galvanised steel with no applied finish. This would match the existing fences elsewhere on site.

Vertical fence posts provide stability to the narrow mesh panels. The fence is 5.2m high from ground level in accordance with MoJ security standards.

The image adjacent provides a precedent for the finish, structure and design of the proposed fence.

FENCE MATERIALITY

PROPOSED FENCE ELEVATIONS 1:100
