

- ⑦ (Oak) on front roadside remove larger deadwood.
- ⑧ (lilac) shrub area reduce to just below hedgeline allowing better view of the front area aspect from roadside etc.
- ⑨ Re-Plant new hawthorn on front to fill gaps. (berries for Wildlife)
- ⑩ Pond area? (Coppice) willows to form bushy new growth.
allow good light penetration and improve aspect.
- ⑪ Detailed pruning of (Yews) @ front area.
(Only the low water shoots)! to show the structure of the main stems and allow clearer view.

IF you would like a walk around one evening to explain my findings it would be a pleasure (Air views - reasons etc).
