**Subject:** Re: Beeston Hall School Application.

Hi Tina,

I'm on site at the moment unfortunately. But those two trees are to inspect and remove dangerous dead wood only, so don't actually need any permission. If we could just proceed with what is there please. I can attach the actual survey map now, though this is a google earth link with all the trees plotted on GPS, but you will need google earth installed to open it.

Thanks,

Robert Wharton

Dear Mr Wharton

Thank you for providing the plan of where the trees are. It looks as though trees 631 and 614 are not highlighted. Can I ask you to add these and return it to me please.

Kind Regards

Tina
