

1. If you do not fully understand the risks involved during the construction of the works indicated on this drawing ask your manager, health & safety officer or a member of the design team before proceeding.
  2. Scaffolding erection to be protected during roof works with internal fall protection.
  3. Any material handling risks to be identified and design team notified in advance of commencement of works.
  4. The contractor should be aware that there may be buried or covered services such as electric, gas or BT not identified on drawing.
  5. The contractor should be aware of the general condition and stability of building fabric, particularly during demolition and alteration work.
  6. When working with lime products which are caustic to skin and eyes, suitable protection is required.
- THIS INFORMATION MUST BE CHECKED ON SITE AND ANY RISKS IDENTIFIED BY OTHER PARTIES REPORTED TO THE PRINCIPAL DESIGNER.
